Cite document ID, version and section number. All versions in this pack are current as of the shared effective date. Change notes refer to fictional history; superseded documents are not supplied.

1. Scope and benefit status

Applies to UK employees. Benefits are fictional company offerings, subject to contract terms, scheme rules and applicable law

People Operations confirms tax treatment, eligibility and any protected entitlements. Benefit summaries do not replace provider terms. Contractors and agency workers do not receive company benefits unless expressly agreed.

2. Pension and protection

For eligible employees the company offers an employer pension contribution of 7% of basic salary where the employee contributes 4%. Salary sacrifice is optional and requires payroll confirmation of eligibility and effect on pay-linked benefits

Payroll separately checks statutory enrolment duties; these synthetic percentages are not statements of legal minimums. Life assurance is four times basic salary, subject to insurer acceptance and scheme conditions. Employees nominate beneficiaries in the provider portal and review nominations after family changes.

3. Health and wellbeing

Private medical cover is available after probation for the employee only. Dependants may be added at employee cost during annual enrolment or an eligible life event

Cover, exclusions, underwriting and taxable benefits depend on provider terms. The employee assistance programme is available from day one, including confidential counselling. Occupational health referrals require a defined workplace purpose and proportionate handling of sensitive information; managers receive functional recommendations rather than unrestricted medical records.

4. Learning and equipment

Each employee has a GBP 750 annual learning budget, pro-rated for part-time staff and joiners. Manager approval is required before booking; regulated-role training required by the company is funded separately and does not reduce this allowance. Unused learning budget expires on 31 December and cannot be cashed out

A one-off homeworking equipment allowance of GBP 250 is available after an approved workstation assessment under AQ-HR-004. It is not refreshed annually. Purchases require prior manager approval and itemised receipts under AQ-HR-003.

5. Enrolment and changes

Request new optional benefits within 30 calendar days of eligibility. Annual enrolment is 1-30 November for the following January. Report a qualifying life event within 30 calendar days; provider acceptance is not guaranteed

People Operations confirms cover start dates in writing. Absence, reduced hours and termination can affect cover; request a personalised assessment before making assumptions. On leaving, payroll communicates final deductions and provider cessation dates.

6. Governance and example

Reward reviews participation and cost annually using aggregate reporting. Personal health information is restricted under AQ-CMP-003. Example: GBP 600 approved course fees leave GBP 150 of the annual learning budget; required compliance training is charged separately

Equipment purchases and courses cannot be reimbursed twice through both a benefit claim and an expense claim. Exceptions require Head of People and Finance approval, recorded with duration. Version 1.3 separates mandatory training from discretionary learning.
